

SURYA PRATAP MALLICK

Software Developer | Full Stack (MERN) | Python

+91 9078186417 | pratapsurya3024@gmail.com | Odisha, India | [Linkedin](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science graduate (B.Tech, CGPA – 8.5) and aspiring Software Developer with hands-on experience in full-stack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js), Python, and SQL. Skilled in building end-to-end applications, RESTful APIs, and interactive dashboards, with practical exposure to CI/CD automation, version control, and deploying production-ready systems. Strong problem-solving foundation from data engineering and machine learning projects, with a passion for writing clean, scalable code and continuously growing as a full-stack developer.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL

Full Stack (MERN): MongoDB, Express.js, React.js, Node.js, HTML, CSS

Databases: MySQL, PostgreSQL, MongoDB

Tools & Version Control: Git & GitHub, GitHub Actions (CI/CD), REST APIs, Bruno

Data & ML Libraries: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, Streamlit

INTERNSHIP

Software & ML Engineering Intern (Remote) | *LogicVeda, 2026*

Built and deployed an end-to-end predictive maintenance application using the NASA CMAPSS dataset, engineering a full pipeline from data processing to an interactive real-time Streamlit dashboard. Automated model deployment and monitoring through an MLOps pipeline and used GitHub Actions for CI/CD, applying core software engineering practices including modular code design, version control, and pipeline automation.

Tech Stack: Python 3.13, Streamlit, Plotly, PostgreSQL, MLflow, GitHub Actions

Live Demo:

logicveda-predictive-maintenance-project.streamlit.app

PROJECTS

TicketHub – Online Ticket Booking Platform 2026

- Developed a unified booking platform for bus, train, and flight tickets, with secure online payments, user authentication, and booking management.
- Implemented a **ticket price prediction system** that analyzes pricing trends to indicate potential price increases or decreases, along with smart search, recommendations, digital tickets, and cancellation/refund features.

Tech Stack: React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Python, Scikit-learn, REST APIs

Student Management System 2026

- Developed a comprehensive student management platform for managing student profiles, academic records, attendance, marks, assignments, examinations, fees, and institutional activities with role-based access for admins, teachers, students, HODs, and parents.
- Implemented **secure authentication, academic performance tracking, attendance management, online requests, notifications, library, hostel, transport, placement, grievance, and communication modules**, providing a centralized digital platform for college administration.

Tech Stack: React, JavaScript, CSS, Node.js, Express.js, PostgreSQL, Neon, REST APIs, JWT Authentication

EDUCATION

B.Tech in Computer Science & Engineering (Data Science) Aug 2023 – Aug 2027

Bhubaneswar Engineering College (BEC), BPUT, Odisha | CGPA: 8.5 / 10

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Machine Learning, Data Analytics.
- Academic and personal projects focused on application development, data preprocessing, and real-world problem solving.

CERTIFICATIONS

- Full Stack Web Development (MERN Stack) --- Ayush Technology
- Python — CAC
- AI & Machine Learning — Coursera
